Inaugural CDOIQ European Symposium | Highlights

What an electrifying symposium it was on the 8th of September. Facts: 162 participants from 116 different organizations, 20 industry sectors, 16 countries, 30 CDOs/CAOs, 66 senior data leaders, 17 speakers and 20 panelists. Participants commented on the excellent quality of speakers, content, and appreciated the exchange between practitioners, academia and partners. In the total 11.5 hours of data and analytics sessions with a European context and 3 hours of networking on campus which continued with 4+ hours at the hosted dinner. LinkedIn has experienced a tsunami of posts from many of the participants. It was a great step to activate and energize the data and analytics community in Europe. Thank you to everyone for coming, contributing, and for real-time feedback (8.35 out of 10 "enjoyed" rating).

CDO Magazine | CDO Magazine Features the EU CDOIQ Symposium

Randy Bean (a noted author, speaker, and thought-leader in the field of data-driven business transformation) has interviewed Dr. Legner and Mr. Abate and collected feedback from participants. The article was published by [CDO Magazine](#). It includes key insights on this first European event. Don't miss reading about his commentary and share it with you colleagues and partners. Randy is a big fan of CDOIQ and the value it represents. Thank you for the kind words and support of the CDOIQ Symposium!

Save The Date | Book 14th September 2023

It is with great pleasure we are announcing the 2nd European CDOIQ Symposium which will take place on Thursday 14th September 2023 again in Lausanne. Based on the positive feedback and words of encouragement, we will be keeping the same format. With Dr. Wang and Dr. Legner co-chairing next year's symposium, it will again be an invitation only event designed for data leaders by data leaders with lots of time for shared experiences, networking, successes and failures to learn from. So please reserve the date on your calendar and stay tuned - more to come.
